

García & García, CPAs, P.A., offers international services in the form of income tax planning and compliance services to foreign companies investing in the United States. One of our main focal points relates to advising on foreign investments in U.S. real estate. We aid these clients, from the individual investor to multi-national corporations, in identifying the structure that best fits their current business needs. The firm provides tax planning and preparation services in order to minimize tax impact and enhance the after tax cash flow.

### **International services provided include:**

- Provide advice regarding U.S. tax laws prior to establishing a business in the U.S.
- Assist/help in deciding for the best form of organization.
- Assist/help in getting the necessary licenses and required documentation to start the business.
- Help in finding a place to buy, rent or to build the company's plant or office.
- Selection and set up of the accounting software including adequate training.
- We will perform all the tax compliance duties for the company including:
- 

Making sure that payroll taxes withheld are deposited on a timely basis.

-

Making sure that sales taxes collected are deposited on a timely basis.

-

We will prepare quarterly payroll tax returns with the State and Federal jurisdictions and the year-end corporation federal and state tax returns, Forms W-2 for wages earned and 1099s for self-employed

-

We will do tax planning on an ongoing basis for the company seeking to minimize the company's tax burden.
